"The Chlorine Dioxide People"

CD-Tab™ Chlorine Dioxide Generating Tablets

Providing industry with chlorine dioxide solutions

Do you want a chlorine dioxide solution?

CD-Tab is the solution to your problems. –*chlorine dioxide solution –with just ONE small tablet.* We have a revolutionary, tablet that works quickly and effectively. It is reasonably priced, easily stored, very powerful, and, most importantly, brings you the benefits of a chlorine dioxide solution for your facility. **CD-Tab** is a neutral pH, chlorine dioxide solution. No mix, No mess. It is extremely effective against Biofilms.

You just need a clean bucket/spray bottle, water, our small, 3 gram **CD-Tab** tablet, and just drop the tablet into your one liter container of tap water and you have a generic, 100 PPM, non-acidic, chlorine dioxide odor-control solution. For higher concentrations, just add another tablet.

What are the advantages?

- No rinsing required
- No mixing and spilling of solutions
- Lower purchase costs than other chlorine dioxide solutions
- Less storage space required
- Lower shipping costs
- Neutral pH
- Controls Odors

Simple to use!

Step One: Drop CD-Tab tablet into water
Let it dissolve (Do not stir or agitate)

Step Two: Spray or wipe surface
It's that simple
