

# “The Process and Benefits of Chlorine Dioxide Gas for Decontamination in the Food, Pharmaceutical, and Life Science Industries”

## FREE WORKSHOP FOR INDUSTRIES CONCERNED WITH MICROBIAL CONTAMINATION

This educational workshop will explore the various methods of disinfection and sterilization available, allowing you to make informed decisions when reviewing your contamination control plan. Focus will be given to chlorine dioxide gas, which is at the forefront of keeping facilities cleaner and safer than ever before, as well as ultraviolet light disinfection.

### AGENDA HIGHLIGHTS

- Comparison of decontamination technologies
  - Safety
  - Efficacy
  - Advantages & Disadvantages
- Exploration of various applications
- Case Studies
- Products & Services
- Food Safety Benefits

**CE Credits are available for the AALAS, ABSA and IFT organizations**

### WHEN

Wednesday September 19, 2018  
8:30AM - 2:00PM  
breakfast and lunch included

### WHERE

Crowne Plaza Indianapolis  
Downtown-Union Station  
123 West Louisiana Street  
Indianapolis, IN 46225

### REGISTRATION

**3 FREE and EASY ways to sign up!**

- 1) Email [workshop@clordisys.com](mailto:workshop@clordisys.com) with the names of all attending
- 2) Call us at 908-236-4100
- 3) Sign up online at:  
[www.clordisys.com/workshops](http://www.clordisys.com/workshops)

### WHO SHOULD ATTEND

Anyone working with or in a critical environment where contamination control is essential; including QA/QC, lab managers, microbiologists, validation scientists, lab planners, production engineers, food safety professionals, and EHS.

### UNABLE TO ATTEND, BUT INTERESTED IN THE PROGRAM?

Join us online at one of our upcoming webinars! Visit [clordisys.com/webinars](http://clordisys.com/webinars) for more info.

**September 18th - CD Gas 101: Intro to its Process and Applications**

**September 20th - Bringing Items into a Clean Room/Barrier Facility**

**September 27th - Decontamination of Low Moisture Food Processing Facilities**
